21<sup>st</sup> January 2026

Dear Sponsor,

We are pleased to announce that the Medical Association of the Bahamas (MAB) will be hosting the 54<sup>th</sup> Annual Scientific Conference from **25<sup>th</sup> -27<sup>th</sup> March, 2026** at the historic British Colonial Hilton Hotel, **Nassau Bahamas**.

Under the theme: “**Breaking Barriers with Innovation: A New Era of Accessible Care**”.

As usual, we have booked a combination of local and international speakers, who are sure to bring exciting, innovative and informative talks to our wide cross section of health care providers.

This year we are focused on Breaking Barriers in Healthcare. As we move into the second half of this decade, and end the first quarter of this century and we see our healthcare system needing to evolve to provide new ways for persons to be able to access the care they need it is imperative that we discuss how this change is being implemented in medicine and what we need to do to stay relevant for our population. Accessibility to care is a pivotal aspect of improving the health care of our nation. To that end, we have decided this year to make our conference hybrid to ensure that there is full accessibility to this knowledge for all. The conference will be half in person and half digital.

The MAB is a non-profit organization that depends heavily on its sponsors and corporate partners to successfully hold a conference of this magnitude. In return we strive to provide you with a large captive audience of healthcare professionals who are eager to see what you can provide for them.

To this end, a **variety of sponsorship** opportunities have been created to allow each company to showcase itself as best suits its needs and budget. Companies will be able to select a package from the following list of opportunities:

### ***PLATINUM SPONSORSHIP PACKAGE - \$25,000.00***
